

S.No.	Item Name & Description	Description of the product
1	Disposable Insulin Syringe 1ml with needle (1ml=40IU), Nweedle Size30-32 gauze, Single use Sterile	Disposable Insulin Syringe 1ml With needle
2	Disposable Syringe 2ml with Needle	Disposable Hypodermic
3	Disposabel Syringe 5ml with Needle	Disposable Hypodermic
4	Disposabel Syringe 10ml with Needle	Disposable Hypodermic
5	Disposabel Syringe 2ml without Needle	Disposable Hypodermic
6	Disposabel Syringe 5ml without Needle	Disposable Hypodermic
7	Disposabel Syringe 10ml without Needle	Disposable Hypodermic
8	Disposabel Syringe 20ml without Needle	Disposable Hypodermic
9	Disposable Needle Single use Sterile size (18G to 28G)	Disposable Hypodermic
10	Dispobale Syringe 50ml without Needle	Disposable Hypodermic
11	Micro drip set sterile Drop size reduced to 50-60 drops/ml.	Micro drip set sterile Drop size reduced to 50- 60 drops/ml.
12	Measured volume infusion set (Paed. Drip) Cylindrical, collapsible 100ml to 120ml chamber, kink resistant tubing with proper controller, Latex Free with ari vent and Y port, sterile with disposable needle	Volufix, Measured volume infusion set
13	Intravenous canula Sterile Disp. Size-16,18,20,22 effective length 25-50mm Should have injection port, colour code according to size, adaptable fixation wings. CE/ISI Approved	Intravenou canula Sterile Dips.Size- 16,18,20,22
14	Intravenous canula Sterile Disp. Size-24 effective length 19mm Should have injection port, colour code according to size, Thin walled with high flow rate. X-ray contrast line, smooth surface, injection valve closing automatically. sanp lid on port, adaptable fixation wings. CE/ISI Approved	Intravenous Cannula Sterile Dsip. Size-24
15	Safety intravenous canula sterile disp. Size 18,20,22 should be made up of polyether urethane (PEU) to prevent needle stick injury effective length 25-50mm should have injection port, colour code according to size. Thin walled with high flow rate. X-ray contrast line, smooth surface, injection valve closing automatically, sanp lid on port, adaptable fixation wings. CE/ISI Apporved	Safety intravenous canula sterile Disp. Size- 18,20,22
16	Three way connetion Disposable, Sterile	Three way connetion Disposable, Sterile
17	Ryle's Tube PVC, with radioopaque material at tip. Fitted with funnel and luer connector colour coded for easy indentification.	Ryles Tube PVC, with Radioopaque line , FG 6 to 20.
18	Infant feeding tube sterile PVC. Distal end closed with two lateral eye. Length 40-55cm, female luer mount. Smooth for use size 5-10F	Infant feeding tube sterile PVC
19	Lumbar Puncture Needle, QUINCKE TIP (length 9&15cm) Disposable ,sterile Size 18,20,22,23,25,26	Lumbar Punture Needle QUINCKE TIP
20	Ileostomy/Colostomy bag with locking system made form soft Non- woven material with velcro opening, hide away outlet as well as triple layer integrated Charcoal Filter Size/Packing : 40mm (+)(-)5mm	Ileostomy/Colostomy bag with locking system made form soft Non- woven material with velcro opening, hide away outlet as well as triple layer integrated Charcoal Filter Size/Packing : 40mm (+)(-)5mm
21	Ileostomy/Colostomy bag with locking system made form soft Non- woven material with velcro opening, hide away outlet as well as triple layer integrated Charcoal Filter Size/Packing : 50mm (+)(-)5mm	Ileostomy/Colostomy bag with locking system made form soft Non- woven material with velcro opening, hide away outlet as well as triple layer integrated Charcoal Filter Size/Packing : 50mm (+)(-)5mm
22	Ileostomy/Colostomy bag with locking system made form soft Non- woven material with velcro opening, hide away outlet as well as triple layer integrated Charcoal Filter Size/Packing : 55mm (+)(-)5mm	Ileostomy/Colostomy bag with locking system made form soft Non- woven material with velcro opening, hide away outlet as well as triple layer integrated Charcoal Filter Size/Packing : 55mm (+)(-)5mm
23	Ileostomy/Colostomy bag with locking system made form soft Non- woven material with velcro opening, hide away outlet as well as triple layer integrated Charcoal Filter Size/Packing : 70mm	Ileostomy/Colostomy bag with locking system made form soft Non- woven material with velcro opening, hide away outlet as well as triple layer integrated Charcoal Filter Size/Packing : 70mm
24	Baseplate with double layer adhesvie, erosion resistant with flexi pattern and round shape ensures flexibility Size/Packing:40mm (+) (-)5mm	Baseplate with double layer adhesvie, erosion resistant with flexi pattern and round shape ensures flexibility Size/Packing :40mm (+)(-)5mm

25	Baseplate with double Layer adhesive, erosion resistant with flexi pattern and round shap ensures flexibility Size/Packing: 50mm (+)(-) 5mm	Baseplate with double Layer adhesive, erosion resistant with flexi pattern and round shap ensures flexibility Size/Packing : 50mm(+)(-) 5mm
26	Baseplate with double Layer adhesive, erosion resistant with flexi pattern and round shap ensures flexibility Size/Packing: 60mm (+)(-) 5mm	Baseplate with double Layer adhesive, erosion resistant with flexi pattern and round shap ensures flexibility Size/Packing : 60mm(+)(-) 5mm
27	Baseplate with double Layer adhesive, erosion resistant with flexi pattern and round shap ensures flexibility Size/Packing: 70mm	Baseplate with double Layer adhesive, erosion resistant with flexi pattern and round shap ensures flexibility Size/Packing : 70mm
28	Urostomy Bag with multi chamber design and non-return valve Size/Packing :40mm (+)(-)5mm	Urostomy Bag with multi chamber design and non-return valve Size/Packing :40mm (+)()5mm
29	Urostomy Bag with multi chamber design and non-return valve Size/Packing :50mm (+)(-)5mm	Urostomy Bag with multi chamber design and non-return valve Size/Packing :50mm (+)()5mm
30	Urostomy Bag with multi chamber design and non-return valve Size/Packing :60mm	Urostomy Bag with multi chamber design and non-return valve Size/Packing :60mm
31	1 Pc Colostomy bag with double layer adhesive with velcro closing as well as triple layer integrated Charcoal filter Size/ Packing :10-76mm	1 Pc Colostomy bag with double layer adhesive with velcro closing as well as triple layer integrated Charcoal filter Size/ Packing :10-76mm
32	Paste for filling and sealing around the stoma and ideal forleveling outscars folds and wrinkles around an fistula Size/Packing 60g	Paste for filling and sealing around the stoma and ideal forleveling outscars folds and wrinkles around an fistula Size/Packing 60g
33	Ostomy powder for use on excoriated peristomal skin and it has excellent moisture absorption capacity of exudates size/packing :25g(+)(-)5g	Ostomy powder for use on excoriated peristomal skin and it has excellent moisture absorption capacity of exudates
34	Colostomy belt for additional support of Colostomy appliance adjustable and washable Size/ Packing : 1pcs	Colostomy belt for additional support of Colostomy appliance adjustable and washable
35	Fistula and wound management system for collection of secretion from faecal fistula Size/Packing : 100-160mm	Fistula and wound management system for collection of secretion from faecal fistula Size/Packing : 100- 160mm
36	Fistula and wound management system for collection of secretion from faecal fistula Size/Packing : 161-230mm	Fistula and wound management system for collection of secretion from faecal fistula Size/Packing : 161-230mm
37	Fistula and would management system for collection of secretion from faecal fistula Size/Packing : 231-300mm	Fistula and would management system for collection of secretion from faecal fistula
38	Uring Bag Basic Size/Packing :2000ml	Uring Bag Basic Size/Packing : 2000ml
39	Silver impregnated foam dressing size/packing : Size 7.5x7.5cm (+)(-) 0.5cm in either or both dismensions	Silver impregnated foam dressing size/packing : Size 7.5x7.5cm (+)(-) 0.5cm in either or both dismensions
40	Silver impregnated foam dressing size/packing : Size 10x10cm (+)(-) 1cm in either or both dismensions	Silver impregnated foam dressing size/packing : Size 10x10cm (+)(-) 1cm in either or both dismensions
41	Silver impregnated foam dressing size/packing : Size 10x30cm (+)(-) 2cm in either or both dismensions	Silver impregnated foam dressing size/packing : Size 10x30cm (+)(-) 2cm in either or both dismensions
42	Silver impregnated foam dressing size/packing : Size 20x20cm (+)(-) 2cm in either or both dismensions	Silver impregnated foam dressing size/packing : Size 20x20cm (+)(-) 2cm in either or both dismensions
43	Latex Free Polyester Cast Bandage is water ativated, knitted polyester tape that produces light weight yet strong casts. Provides rigid and semi- rigid casting options for primary and secondary application. Excellent conformability with soft edges, excellent lamination and a smooth finish. 3-5 minute set time and is weight bearing in 20-30 minutes. casting gloves for application included. Size/Packing: Size 7.5cm X 3.6m.	Latex Free Polyester Cast Bandage is water ativated, knitted polyester tape that produces light weight yet strong casts. Provides rigid and semi- rigid casting options for primary and secondary application. Excellent conformability with soft edges, excellent lamination and a smooth finish. 3-5 minute set time and is weight bearing in 20-30 minutes. casting gloves for application included .Size/Packing: Size 7.5cm X 3.6m.

53	<p>An antimicrobial absorbent 3- layer dressing consisting of the following : A SSD (Silver sulfadiazine) containing absorbent hydro cellular pad sandwiched between a perforated adhesive wound contact layer and a waterproof outer films- Silicon gel adhesive- Silver protection and sustained antibacterial activity for 7 days- Triple action technology absorbs, retains, and trasnpires exudates to provide optimal fluid management- provides and optimal moist wound environmed for the promotion of faster closure-Gentle adhesive allows for less painful dressing changes- Cost effective Long wear time resulting into fewer dressing changes SIZE : 5X 5CM polyurethane foam dressing with ag non adhesive</p>	<p>An antimicrobial absorbent 3-layer dressing consisting of the following :</p>
54	<p>An antimicrobial absorbent 3- layer dressing consisting of the following : A SSD (Silver sulfadiazine) containing absorbent hydro cellular pad sandwiched between a perforated adhesive wound contact layer and a waterproof outer films- Silicon gel adhesive- Silver protection and sustained antibacterial activity for 7 days- Triple action technology absorbs, retains, and trasnpires exudates to provide optimal fluid management- provides and optimal moist wound environmed for the promotion of faster closure-Gentle adhesive allows for less painful dressing changes- Cost effective Long wear time resulting into fewer dressing changes SIZE : 15X 15CM polyurethane foam dressing with ag non adhesive</p>	<p>An antimicrobial absorbent 3-layer dressing consisting of the following :</p>
55	<p>An antimicrobial absorbent 3- layer dressing consisting of the following : A SSD (Silver sulfadiazine) containing absorbent hydro cellular pad sandwiched between a perforated adhesive wound contact layer and a waterproof outer films- Silicon gel adhesive- Silver protection and sustained antibacterial activity for 7 days- Triple action technology absorbs, retains, and trasnpires exudates to provide optimal fluid management- provides and optimal moist wound environmed for the promotion of faster closure-Gentle adhesive allows for less painful dressing changes- Cost effective Long wear time resulting into fewer dressing changes SIZE : 10X 10CM polyurethane foam dressing with ag GENTLE BORDER</p>	<p>An antimicrobial absorbent 3-layer dressing consisting of the following : A SSD (Silver sulfadiazine) containing absorbent hydro cellular pad sandwiched between a perforated adhesive wound contact layer and a waterproof outer films- Silicon gel adhesive- Silver protection and sustained antibacterial activity for 7 days- Triple action technology absorbs, retains, and trasnpires exudates to provide optimal fluid management- provides and optimal moist wound environmed for the promotion of faster closure-Gentle adhesive allows for less painful dressing changes- Cost</p>

56	An antimicrobial absorbent 3- layer dressing consisting of the following : A SSD (Silver sulfadiazine) containing absorbent hydro cellular pad sandwiched between a perforated adhesive wound contact layer and a waterproof outer films- Silicon gel adhesive- Silver protection and sustained antibacterial activity for 7 days- Triple action technology absorbs, retains, and traspires exudates to provide optimal fluid management- provides and optimal moist wound environmed for the promotion of faster closure-Gentle adhesive allows for less painful dressing changes- Cost effective Long wear time resulting into fewer dressing changes SIZE :17.5 X 17.5CM polyurethane foam dressing with ag dressing border	An antimicrobial absorbent 3-layer dressing consisting of the following :
57	Non Woven 2 way stretchable water repellent wide area fixation dressing with spilt release paper printed with 1cm grid ,coated with skin friendly polyacrylate adhesive, 5cm X 10m	Non Woven 2 way stretchable water repellent wide area fixation dressing with spild release paper printed with 1cm grid, coated with skin friendly polyacrylate adhesive, 5cm X 10m
58	Non Woven 2 way stretchable water repellent wide area fixation dressing with spilt release paper printed with 1cm grid ,coated with skin friendly polyacrylate adhesive, 10cm X 10m	Non Woven 2 way stretchable water repellent wide area fixation dressing with spilt release paper printed with 1cm grid ,coated with skin friendly polyacrylate adhesive, 10cm X 10m
59	Non Woven 2 way stretchable water repellent wide area fixation dressing with spilt elease paper printed with 1cm grid ,coated with skin friendly polyacrylate adhesive, 15cm X 10m	Non Woven 2 way stretchable water repellent wide area fixation dressing with spilt elease paper printed with 1cm grid ,coated with skin friendly polyacrylate adhesive, 15cm X 10m
60	Non Woven 2 way stretchable water repellent wide area fixation dressing with spilt elease paper printed with 1cm grid ,coated with skin friendly polyacrylate adhesive, 10cm X 2m	Non Woven 2 way stretchable water repellent wide area fixation dressing with spilt elease paper printed with 1cm grid ,coated with skin friendly polyacrylate adhesive, 10cm X 2m
61	Foleys urethral cath. Sterile (Three way) a) Made of latex rubeer b) should be smooth and non-irritant with plastic hard non-returnable valve c)Balloon should not rupture easily.Should be deflatable and inflate unifromly d) should have rounded sealed tip which is non- traumatic. Sterile, Size FG 18,20,22,24 Balloon Capacity 30-50ml,	Foleys urethral cath. Sterile (Three way) a) Made of latex rubeer b) should be smooth and non-irritant with plastic hard non-returnable valve c)Balloon should not rupture easily. Should be deflatable and inflate unifromly d) should have rounded sealed tip which is non- traumatic. Sterile, Size FG 18,20,22,24 Balloon Capacity 30-50ml,
62	Silicon Foleys Catheter Sterile (Two way should be made up of clear grade silicon material for clear visualization of drainage, Should be ISI/CE/FDA mark. A) Balloon should not rupture easily. Should be deflatable and inflate uniformly b) should have rounded sealed tip which is non-traumatic Size 12,14,16,18,20,22,24 balloon capacity 30-50ml, sterile packed in double wrap peelable pouch for aseptic handling.	Silicon Foleys Catheter Sterile (Two way should be made up of clear grade silicon material for clear visualization of drainage, Should be ISI/CE/FDA mark. A) Balloon should not rupture easily. Should be deflatable and inflate uniformly b) should have rounded sealed tip which is non-traumatic Size 12,14,16,18,20,22,24 balloon capacity 30-50ml, sterile packed in double wrap peelable pouch for aseptic handling
63	Urine collection bag PVC, sterile, of 2000ml with non- return valve with drainage outlet. Single/Double pack, graduations, good quality. Provided with molded handle for carrying, hanging and holding and to keep the drain tube in upright position to prevent kinking. Length of Tube 100cm	Urine collection bag PVC, sterile, of 2000ml with non-return valve with drainage outlet. Single/Double pack, graduations, good quality. Provided with molded handle for carrying, hanging and holding and to keep the drain tube in upright position to prevent kinking. Length of Tube- 100cm
64	Infant Urine Collection Bag Disposable, Capacity (100-250ml)	Infant Urine Collection Bag Disposable, Capacity
65	Urine Bag with Urine Meter Transparent measure volume urine meter integrated with urine bag with overflow facility. Should have universal tapered connector with sampling port facilitiy	Urine Bag with Urine Meter Transparent measure volume urine meter integrated with urine bag with overflow facility. Should have universal tapered connector with sampling port facilitiy
66	Negative Suction wound drainage vaccum set should have graduated ,Bellow of 600ml capacity .should have 2 radio opaque lined drain catheters .Drain sizes:FG 10,12.Should be double packed sterile	Negative Suction wound drainage vaccum set should have graduated ,Bellow of 600ml capacity .should have 2 radio opaque lined drain catheters .Drain sizes:FG 10,12.Should be double packed sterile

67	Negative Suction wound drainage vacuum set should have graduated ,Bellow of 600ml capacity .should have 2 radio opaque lined drain catheters .Drain sizes:FG 14,16, 18.Should be double packed sterile	Negative Suction wound drainage vacuum set should have graduated ,Bellow of 600ml capacity .should have 2 radio opaque lined drain catheters .Drain sizes:FG 14,16,18.Should be double packed sterile
68	Sterile disposable urethral catheters a)should be made of Non -toxic ,Non -irritantant ,medical grade PVC, b)should have radio -opaque line for X- Ray visualization .c)Proximalised should have a funnel shaped connector for easy connection to urine bag d) Distal end is covered with lateral eyes .e) Size 6 to 18 FG	Sterile disposable urethral catheters a)should be made of Non -toxic ,Non - irritantant ,medical grade PVC,b)should have radio -opaque line for X- Ray visualization .c)Proximalised should have a funnel shaped connector for easy connection to urine bag d) Distal end is covered with lateral eyes .e) Size 6 to 18 FG
69	Yankauer suction set moulded transparent yankur handle with thump control attached with 2.5 mtr.Long designed tubing with moulded connector for easy attachment to any type of suction apparatus tube length 2.5mtrs.Tube diameter 27FG . Sterile packed in soft blister pack .with microtip fine	Yankauer suction set moulded transparent yankur handle with thump control attached with 2.5 mtr.Long designed moulded connector for easy attachment to any type of suction apparatus tube length 2.5mtrs.Tube diameter 27FG . Sterile packed in soft blister pack .with microtip fine
70	Suction catheter Disposable sterile suction catheter Distal end open with one lateral eye.Length 40-55cm size FG 6,07,7,0,8,0,10,0	suction catheter Disposable
71	supra cath made from non-toxic medical grade PVC ,should have a radio opaque line for Xray visualisation .size FG 16,18,20,22 length about 25cm Ballon capacity 10ml sterile and individually packed with a trocar	supra cath 100 silicons supra public balloon catheter with trocar
72	Under water seal (chest Drainage kit) drainage catheter & chestbag PVC sterile size 8,10,12,14,16,18,20,22,24 frand 28 Fr	Under water seal (chest Drainage kit)drainage catheter & chest bag PVC sterile size 8,10,12,14,16,18,20,22,24 frand 28 Fr
73	Paediatric Oxygen Mask Paediatric mask with tube, soft transparent, odour free	Paediatric Oxygen Mask Paediatric Mask
74	High Concentration Oxygen Mask Single use, For High Concentration Oxygen therapy, soft transparent and odourfree mask, Non return valve at inhale and exhale point Light wt. reservoir 500-600ml Tube length 1,0-1.5m	High Concentration Oxygen Mask Single use, For High Concentration Oxygen therapy, soft transparent and odourfree mask
75	Intravenous High Pressure Extension Tube Small bore, high pressure spiral coil extension tube with male luer lock at one end and female luer lock at other end. Made up of Medical grade P.V.C	Intravenous High Pressure Extension Tube Small bore, high pressure spiral coil extension tube with male luer lock at one end and female luer lock at other end. Made up of Medical grade P.V.C
76	Nasal Prongs Disposable for Oxygen delivery system in critical care patients on Ventilator or Monitor with adjustable stopper, sterile.	Nasal Prongs Disposable for Oxygen delivery system in critical care patients on Ventilator or Monitor with adjustable stopper, sterile.
77	Tracheostomy tube (P.V.C) Plain should be thin smooth, Size 12F-42F/4-10 No.Should have strap for fixation	Tracheostomy Tube
78	Tracheostomy tube (P.V.C) Cuffed should be thin smooth, Size 12F-42F/4-10 No.Should have strap for fixation	Tracheostomy Tube
79	Bifurcated small bore extension set With 2 caresite, spinlock and should have positive displacement and transparent Hub.	Bifurcated small bore extension
80	C.V.P. Manometer Scale to measure CVP pressure sterile, manometer tube with graduation from 4cm to 34cm, attached to 3way extension tube for connection with CVP indicator, clamps to fit with IV stand	C.V.P. Manometer Scale to measure CVP pressure sterile
81	Spinal Needle Disposable ,per- sterilliezed with plastic colour coated hub smooth movement, size 21-23G	Spinal Needle Disposable ,per- sterilliezed with plastic colour coated hub smooth movement, size 21-23G
82	Nasopharyngeal airway of Size 6, 6.5,7,7.5,8 with fixed flangs approx 17cm long O.D 24 to 34	Nasopharyngeal Airways
83	Heat Moisture Exchange Filters (HME Filter) Latex Free, High efficiency, low resistance light weight,ergonomic clinical fittings should ensure secure connection, weight upto 20gms, May be attached to Ventilators and Anaesthesia Circuit	Heat Moisture Exchange Filters (HME Filter) Latex Free, High efficiency, low resistance light weight,ergonomic clinical fittings should ensure secure connection, weight upto 20gms, May be attached to Ventilators and Anaesthesia Circuit
84	Nebulizer Kit with mask Disposable nebulizing chamber with low resistance attached to mask	Nebulizer Kit with Mask
85	Guedel Airway Paediatric Should be available in all sizes, Colour coded for easy identification, Block bite, should have facility to pass suction catheter through it.	Guedel Airway Paediatric Should be available in all sizes, Colour coded for easy identification, Block bite, should have facility to pass suction catheter through it.
86	PMO Line L-150cm Capacity 1.8ml,Latex Free, Disposable, Sterile Pack	PMO Line-L-150cm Capacity 1.8ml, Latex free, Disposable, Steril pack

87	PMO Line L-200cm Capacity 1.8ml, Latex Free, Disposable, Sterile Pack	Pressure Monitoring Line Small Bore, High Pressure Line, with Low Prime Volume Accessory of Infusion Set
88	Pressure Infusion Bag Autoclavable, Size : 1/2 L	Pressure Infusion Bag Autoclavable, Size : 1/2 L
89	Pressure Infusion Bag Autoclavable, Size : 1 L	Pressure Infusion Bag Autoclavable, Size : 1 L
90	Eye draps Size : 80 x 70cm with adhesive area of 7x9cm, Sterile, high dye, with drain pouch	Eye draps Size : 80 x 70cm with adhesive area of 7x9cm, Sterile, high dye, with drain pouch
91	Sterile-U-Drapes with adhesive strip (Double layer Disposable), Size : 200 X 240cm medical grade fabric not less than 60 GSM	Sterile-U-Drapes with adhesive strip (Double layer Disposable), Size : 200 X 240cm medical grade fabric not less than 60 GSM
92	Sterile-U-Drapes with adhesive strip (Double layer Disposable), Size : 160 X 200cm medical grade fabric not less than 60 GSM	Sterile-U-Drapes with adhesive strip (Double layer Disposable), Size : 160 X 200cm medical grade fabric not less than 60 GSM
93	Sterile Knee O drape with adhesive strip (reinforced impermeable 3 layer fabric), Size : 200 X 320cm	Sterile Knee O drape with adhesive strip (reinforced impermeable 3 layer fabric), Size : 200 X 320cm
94	Sterile Double Knee O drape with adhesive strip (reinforced impermeable 3 layer fabric), Size : 200 X 320cm	Sterile Double Knee O drape with adhesive strip (reinforced impermeable 3 layer fabric), Size : 200 X 320cm
95	Sterile Elbow Drape with adhesive strip (reinforced impermeable 3 layer fabric), Size : 150 X 250cm	Sterile Elbow Drape with adhesive strip (reinforced impermeable 3 layer fabric), Size : 150 X 250cm
